What's new:

- **AI - controls players more intelligently using tools such as Chalkboards, Punishers, Punishments and Anchors.**
- **Assist and Defend - meaning the team you’re playing against will have to make a crucial decision and think on their feet. This will result in your defenders pressing forward - and if they do not return to their position on time - that also gives your attackers the chance to create space and receive a striker’s pass.**
- **Ball Control - Passing, dribbling and**

shooting all link together. A powerful dribble, through a pack of defenders, can bring a goal. In addition, the Ball Control shortcut key allows players to switch quickly from dribbling to looking for a pass.

- **Breaker - a pack leader that allows the entire team to play from defence to attack freely.**
- **Dribble Speed - Goalkeepers have improved reactions and are more likely to dive and catch the ball before it reaches the back post.**
- **Emotions - Play the way you feel. Create your own emotions and how the game feels for you by setting your strategy and tactics. Add music or silence to your UEFA Champions League or UEFA Europa League match.**
- **Exhilaration - this feeling of pride that comes from scoring a goal against the odds. Enjoy going one-on-one with your rivals, or scoring the first goal in a match. This state of excitement and pure exhilaration increases your rating in the emotion barometer.**
- **G-Rates - For the first time ever FIFA introduced G-Rates. Using the game mechanics introduced in FIFA 21 - such as Memory Cards, Skill Cards, Athletics, Speed, and Stamina - players can now earn achievements linked to their ratings.**
- **Human Set Pieces - Make every shot an opportunity to score in Player Officiating.**
- **New Transfer Authenticity System - As players get increasingly more prestigious and the value of the transfer increases, so does the authenticity of the completed transfer. After the player's services have been terminated, players can take the fee from an incomplete transfer onto the**

following, completed transfer. Each transfer containing more than one fee will create a “Resale” fee (the difference between the fees) that goes to EA.

- **New Tunnel - Navigate your way through**
