GreyhoundManager2Rebootedcrackdownloadfreepc(5) Â· These mice can also be used as microphone input devices..rsais7.zipp.Q: Rewrite txt file with spaces between words I am trying to write the contents of a txt file to a second txt file. The source txt file is very large and I am using the following line to reduce the size: `$file_content = file('My_File.txt');` `echo $file_content;` Then the contents are written to the second txt file as: 2012-11-29 17:03:37 \$file_content The txt file looks like this: A very big long list of words Let's say I want to add spaces every 4 words in the txt file. So the end result should look like: A very big long list of words Space Space Space Line Line Line Title Title Title How can I achieve this? A: There are various ways to achieve that, but here are a few, that should work with the source data you gave us. First method: `$chunk_size = 4; // number of words per chunk` `$max_chunk_size = 1000; // amount`
